An Arab's Parlor.

A woman traveler in Egypt is amazed at the dearth of the natives' household goods, says a correspondent of the Chicago News. There is little furniture because the Arab needs little. His life is spent out of doors, and he can sleep in any handy gutter as peaceably and happily as a child, while most of his meals are eaten in the open air. In one exceptionally luxuridus house,

that of a charwoman, the traveier found a parlor. It was regarded as a sort of shrine by Fatima. She had made it a fetich, devoting to its embellishment all the money she could spare and sacrificing to it even her children's wants. The visitor was shown through a broken down doorway into a squalid passage, where two rooms at either end revealed perspectives of greater squalor beyond. Children teemed from every entrance.

Arrived at the holy of holies, the door had to be unlocked. It was a brand new Birmingham lock. Distant Manchester had supplied a carpet blazing with roses and small creton curtains of brilliancy to match. Blood Troubles:

As the blood contains all the elements necessary to sustain life it is important that it be kept free of all impurities, or it becomes a source of disease, poisoning instead of nourishing the body, and loss of health is sure to follow. Some poisons enter the blood from without, through the skin by absorption, or inoculation; others from within, as when waste products accumulate in the system and ferment, allowing disease germs to develop and be talen into the circulation. While all blood troubles have one common origin, each has some peculiarity to distinguish it from the other. Contagious Blood Poison, Scrofula, Cancer, Kheumatism, Eczema and other blood diseases can be distinguished by a certain sore, ulcer, eruption or inflammation appearing on the skin. Every blood disease shows sooner or later on the outside and on the weakest part of the body, or where it finds the least resistance.

Many mistake the sore or outward sign for the real disease, and attempt a cure by the use of salves, liminents and other external applications. Valuable time is lost and no permanent benefit derived from such treatment.

nently cradicated—the blood reinforced, punified and cleansed, or the disease goes deeper and saps the very life. Mercury, potash and arsenic, the treatment usually prescribed in this class of diseases, are violent poisons, even when taken in small doses—never cure, but do much harm by adding another poison to the already overburdened, diseased blood.

S. S. S., Nature's own remedy, made of roots and herbs, attacks the disease in

the blood, antidotes and forces out all impurities, makes weak, thin blood rich, strong and healthy, and at the same time builds up the general health. S. S. S. is the only purely vegetable blood perifier known, and the only one that can reach deep-seated blood troubles. A record of 50 years of successful cures proves it to be a reliable, untailing specific for all blood and skin troubles.

Free Medical Peatment. - Our Medical Department is in charge of skilled physicians, who have made blood and skin diseases a life study, so if you have Contagious Blood Poison, Gincer, Scrofula, Rheumatism, Eczema, an Old Sore or Ulcer,
